Description of your proposed project:

Summary (1 or 2 sentences)

To strengthen the Parents Reaching Out (PRO) – a network of family and friends of children and adults with an intellectual disability. To bring relevant resources and information to assist them in their pursuit of caring for the loved ones and not suffer from the feeling of isolation in our welcoming community of South Dundas.

Longer Description:

Funding would provide formal and informal venues and opportunities for the family network to broaden and increase access to relevant strategies, tools and resources to help support children and adults with an intellectual disability and their families:

- To empower families to find their voice.
- To learn about different types of resources available today. One such resource would be technological assistance to increase independence and reduce support costs.
- To research and discuss collaborative approaches to complex issues of isolation and vulnerability.
- To provide family to family support on relevant topics as identified by members.

I have been given the authority to submit this proposal on behalf of the organization.

yes
