

100 Men of South 2019 Dundas PROJECT APPLICATION FORM

Your name: Michael Burton, Chair, Morrisburg Waterfront Advisory Committee – Presenter
Rosemary Laurin, Secretary, Morrisburg Waterfront Committee – Project Co-ordinator

Name of your charity, organization or project:

Morrisburg and Iroquois Waterfront Advisory Committees

Contact Email And or phone number:

Michael Burton – michaelburtonforchange@gmail.com Rosemary Laurin – rlaurin52@gmail.com

Description of your proposed project:

Purchase and installation of a Water Bottle filling Station and Fountain, at Iroquois Beach & Morrisburg Splash Pad.

Longer Description:

Within the last few years significant improvement projects have been undertaken at Iroquois Beach, and Morrisburg Playground/Splashpad. Both projects have had the desired effect – providing the opportunity for FREE and healthy recreation for residents and visitors alike enjoying sunny days outdoors with their families in these popular locations.

Our request of the 100 Men is funding for a combination Water Bottle Filling Station and Fountain for kids and families enjoying the day outside, and for those walking or running through the area.

Both locations have seen significant increases in usage, and for longer periods of time. **There is no potable water at either location outside of the washroom sinks.** Everyone today understands the importance of hydration, and the risky effects of dehydration. We all also understand the costs & negative issues of disposing of plastic water bottles. We can address both the hydration & plastic bottle disposal issues by installing the Water Bottle Filling Station/Fountain, making water freely available for everyone.

X I have been given the authority to submit this proposal on behalf on the organization.

X This organization can give tax receipts for donations through municipality

What is the estimated cost of this project? (\$1,000-\$10,000):

Cost of the Project: Water Station \$2,000 + Plumbing and Installation \$500 = \$2,500 x 2 = **\$5,000.**

What is the estimated date of completion if this group receives the donation? Spring 2020.

Vandal Resistant Water Filling Station/Fountain

How will completion of this project directly benefit the residents of South Dundas?

With increased numbers of children and families using these facilities, the Water Bottle Filling station will keep folks hydrated during long sunny days, there will be water available for those walking or running through the area, and the use of plastic water bottles and their disposal will be eliminated.

What do you know about these organizations that you wish everyone knew?

Committees of Council such as the Waterfront Committees are made up of volunteers interested in improving the Waterfront and Parks and the opportunities for their use that are accessible to everyone in the community for FREE by community and visitors alike. Current committees have experience in Engineering, Construction, Tourism, PR, Volunteering and specific Community Infrastructure knowledge. That is a wealth of valuable experience, all donated! Improvements at both Morrisburg and Iroquois waterfront and park areas have been under discussion and planning for a very long time. Working co-operatively with Staff and Council, the Committees have demonstrated that they have found the right formula for getting things done
